Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, affering women known as Dr. Pierce's suffering women known as Dr. Pierce's Favorite Prescription. Dr. John Fyfe one of the Editorial Staff

of THE ECLECITO MEDICAL REVIEW says of Unicorn root (Helonias Dioica) which is one of the chief ingredients of the "Fa-

of Unicorn root (Income Date of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator "makes for normal activity of the entire reproductive agstem. He continuos" in Hedonias we have a medicament which more fully answers the above purposes them any other drue with which I am acquainted. In the treatment of diseases particular to women it is seldom that a case is seen, which does not present some indication for this remedial agent." In Fyfe further says: "The following are among the leading indications for Helonias (Unicorn woth Pain or aching in the back, with electorrhosa; atomic (seal) condition of the reproductive organs of women, mental depression and irritability, essociated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kildness; membriparia (flooding), due to a weakened consistent of the reproductive organs and affective organs and affecting the period of the kildness; membriparia (flooding), due to a weakened consistent of the reproductive organs and affecting the period, akaling from or accompanying an abnormal condition of the digestive organs and affecting (in blood) habit; dragging consistent of the above symptoms. If more or less of the above symptoms.

PROSPECTS OF A HOLY WAR. PROSPECTS OF A HOLY WAR.
According to dispatches from Opestantinople, the Young Turks have won
another victory over Sultan Abdul sovereign of the empire, but he will place the affairs of government entirely

According to dispatches from Unisable of the strong lower part of the abdolone."

If more or less of the above symptoms are present, no final woman can no better than take Dr. Pierce's Favorite Prescription, one of the scaling ingredients of Which is Unicorn root, or Helonias, and the modical properties of which is most faithfully represents.

Of Golden Scal root, another prominent ingredient of "Favorite Prescription."

Prof. Finley Ellingwood, M. D., of Bonnett Medical College, Chicago, Says:
"It is an important remedy in disorders of the womb. In all catarrhal conditions and green at antesidement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Scal root:

"In relation to its general effects on the system, there is no molicine in use about which there is such general unanimity of opinion. It is universally regarded as the tunic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Scal:

"Valuable in uterine hemorrhage, menorrhagia (fooding) and congestive dysmenor rheat infooding and congestive dysmenor rheat incoding and congestive dysmenor rheat infooding a

The changes in the garrison will be carried out leisurely, one battalion at a carried out leisurely, one battalion at a time entering the capital, until all the disaffected forces in Constantinople are replaced. The public will scarcely be aware of the change and it is certain that this will be accomplished without either conflict or acts of violence. For the present, therefore, there need be little fear of bloodshed within the city, but there is much to be feared from the riots and massacres that are sweeping iots and massacres that are sweeping over the districts under Turkish dominstion.

The authorities are closing their eyes to the great number of desertions Wed-nesday and Thursday from the units stationed in the capital. Last night hundreds of soldlers, uniformed but without arms or munitions, were alip-

ping out, bound for Asia Minor. Fewer white or green turbaned priests are seen in the streets of Constantinople. Many of them also have left the city for places in Asia, threatening to raise the country and return with the faithful to rescue the grand caliph and save the religion from the unbelievers. The pos-sibility of raising the standard of the prophet and the cry for a holy war is causing great anxiety.

ICE JAM AT NIAGARA

Dispatches from Nisgara Falls say Teeth made elsewhere from \$8 that deep despair settled over the region helow the Lewiston escarpment las night when it became clear that the effects to break the ice jsm with dynamite were fruitless. The results of severa blasts were bardly noticeable outside of smashing the ice about the place where the dynamite was exploded.

During the morning men carried the dynamite far out on the ice near the nouth of the river between Fort Nag ara and Niagara-on-the-Lake. It was found that the ice there was about sixty feet thick. A favorable opening was so lected for the first blast and fully 10 counds of dynamits were packed as sol dly as possible in the ice. Heavy planks were placed over the top and after the people had moved out of dan-ger the charge was set off. Ice flew high into the air.

Something, ice or debrie, was driver oward the Fort Nisgara cottages. One roof was plerced and the lighthouse somewhat damaged. So far as the mejor part of the jam was concerned, the blast did not disturb it in the least. The conclusion was that bravier charges of

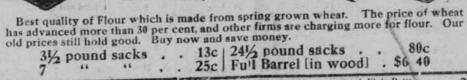

stuff as dynamite, and yet it forms a jam of great solidity. At Niagara-on-the-Lake, Ontario, and in front of Fort Niagara and Youngstown there has been no change. The same is true in front of Lewiston and Queenstown. Occasion-ally it would be observed that the water was rising, and then it would settle

Throughout its length the ley mass is feeling the effects of the spring weather, but it might take weeks of summer to rot the ice so that it would break away, as it is so thick that the currents do not have full play upon it.

PESIS. At this time of the year the fruit grower, gardener and trucker are beginning to worry about possible damage to their crops by insect pests and diseases, These pests have greatly increased in recent years, keeping pace with the rapid development of the fruit and trucking industries. A conservative estimate is that Virginia fruit growers and truckers lose from eight to ten millions of dollars s year by the attacks of these enemies. But most of these injuries can be either completely prevented or greatly lessented by prompt measures; the most important of these is spraying. Spraying is not very difficult, or expensive, as many people suppose, and hundreds of Virginia fruit growers and trackers have demonstrated that it pays when properly done. The State Agricultural Property done. The State Agricultural Experi-ment station, at Blacksburg, has just issued a timely circular on this subject. This circular may be secured free upon application to the Sa'e Agricultural Experiment Station, Biacksburg, Va.
